

# Graceland Timber Harvest Plan (THP)

The Graceland Timber Harvest Plan is in the process of being approved by CalFire, whose forest practice inspectors make sure the plan complies with California's Forest Practice Rules. Each THP follows the same format and includes a vicinity map, shown below with the Big Wheels unit designated.

Section II from the THP also has maps with the proposed silvicultural prescriptions:

Here is the acreage breakdown for each type of silviculture:

## SECTION II - PLAN OF TIMBER OPERATIONS

**NOTES:** (1) Specific LTO operational information should be provided in Section II. (2) If a provision of this THP is proposed that is different than the standard rule, the explanation and justification should normally be included in Section III. (3) Mapping requirements are identified under 1034(x). Additional maps may be used to provide the information required, to show specific details, or to improve map clarity.

### SILVICULTURE

14. a. Check the Silvicultural methods or treatments allowed by the rules that are to be applied under this THP. Specify the option chosen to demonstrate Maximum Sustained Production (MSP) according to 913.11 (933.11, 953.11). If more than one method or treatment will be used show boundaries on map and list approximate acreage for each.
