Important Information about Field Testing:

- Testing stations will be 35 minutes each with 5-minute rotations in between.
- Teachers will travel in the same rotation with their team but may not interact with team members at any time during the testing periods. They may, however, look at a blank copy of the test provided by the person in charge of the test station.
- Teachers need to be aware of the route to the next station and will be responsible for getting their group of students there on time.
- Teams cannot use notes, written materials, or forestry tools except those given to them at the stations.
- Teams are responsible for bringing their own clipboard.
- Students will return all tools before moving to the next testing station.
- At the end of the afternoon test session, Test Keys will be posted for teams for review and students will have an opportunity to revisit the stations if there are any questions.
