6. Please provide a one sentence “testimonial” about Forestry Challenge:

“This was an illuminating experience for our students, so much so they hope to attend future events. As someone who came in with little to novice experience and knowledge, I now feel like I have a more solid understanding of forestry.”

“This event is a huge opportunity for students to grow in their leadership and explore a potential future career. I have one student now looking to pursue forestry in college.”

“Forestry Challenge is an amazing experience for students to learn more about forests and themselves in an encouraging and fun environment.”

“Forestry Challenge is an excellent opportunity to touch, see, feel, and do things that foresters do on the daily, including manipulating data and presenting findings. Students work closely with field professionals, learning about and seeing the forest in a new and different way.”

“Every year Forestry Challenge confirms my opinion that the way this is organized is exactly what teaching science should be like. A model program that incorporates the ideals of NGSS.”
