5. Please provide a one-sentence "testimonial" about Forestry Challenge:

"Outdoor education like the Forestry Challenge does an excellent job of incorporating NGSS skills and opens the door of opportunity and exposure for a job in forestry. My students have learned an immense amount of information in such a short period of time"

“The Forestry Challenge is like drinking from a fire hose of profession-level real-world forestry: bring your thirst, buckle-up, and enjoy!”.”

“It has made a deep impression on many of my students over the years. Many have entered college considering careers related to natural resource management.”

“I love this opportunity for students to meet new people in the field, undergraduates, and people involved with different aspects of forestry and natural resources.”

“As our education system becomes increasingly technology-obsessed and the workforce is pushed into an evermore virtual reality, the Forestry Challenge brings students back to the natural environment and introduces them to a professional skillset founded in reality.”
