9. Please provide a one sentence "testimonial" about the Forestry Challenge:

**Before going into this challenge, I thought I knew a lot about the forest, but this challenge taught me a lot and it showed me that there are still people out there who care for our forests, it gave me hope for the future of our forests.**

**The Forestry Challenge effectively communicates to students of diverse academic interests that forestry is not limited to environmentalists, and that the implications of the practice span further than society deems it, as forests are the future for humanity.**

**The Forestry Challenge is an amazing experience for any student who wants to learn about forestry; it provides the unique opportunity to apply that knowledge to a real-life situation with industry professionals in a fun and supportive environment.**

**Overall, I have enjoyed Forestry Challenge this year and truly it was a challenge having to learn differently and having no help with hands on experience. This truly made me realize the importance of foresters and for that I say thank you!**

**It was a great way for students to get involved and learn about new topics that we typically would not be introduced to in a normal class.**

**Forestry Challenge allowed me and my friends to work towards a common goal during quarantine--we are so grateful for this amazing experience as it broadened our perspective and helped us realize the importance of forestry.**
